

SAP S/4HANA and BigCommerce Integration

Integration Endpoints

SAP S/4HANA and BigCommerce Integration

Product

- Products listed in SAP S/4HANA will be synced as Products under Catalog in BigCommerce.
- Since Product sync works bidirectionally, updates made to existing products with details in SAP S/4HANA will also be synced to BigCommerce.
- Updates made to any product in SAP S/4HANA (where product is already available in BigCommerce), the details will be synced to BigCommerce as well.

Customer

- **New Customer**
New customer's account, contact information, billing and shipping address etc. will be synchronized from BigCommerce to SAP S/4HANA Business Partner Master Data.
- **Existing Customer**
Existing web customer's details are downloaded from BigCommerce to SAPS/4HANA automatically in real time.

Inventory

- Inventory level updates in SAP S/4HANA will be synced to BigCommerce, updating the item quantity in BigCommerce.

Sales Order

- New orders placed on the BigCommerce website will be synced to SAP S/4HANA as Sales Transaction Entry under the Sales section, with all the details such as item orders, amount, customer information, etc.
- All the web orders will be posted in SAP under an individual Customer.

Integration Endpoints

SAP S/4HANA and BigCommerce Integration

Invoice

- Invoices generated in SAP S/4HANA are synced to BigCommerce automatically.

Price

- Updates in Product Prices in SAP S/4HANA will be seamlessly synced to BigCommerce for accurate pricing.
- Alternatively, product price changes in BigCommerce eCommerce will be synced in real-time in SAP S/4HANA.

Order Fulfillment

- Any order fulfillment from the Order Fulfillment section under Sales in SAP S/4HANA will be synced to BigCommerce with details such as tracking number, shipping method etc.

**The endpoints mentioned above are the standard offering for SAP S/4HANA and BigCommerce integration. Custom endpoints and integrations can be implemented based on specific business needs.

Transform the way you work and improve business efficiency!

APPSeCONNECT-led business processes streamline your business workflow and help you expand customer and employee satisfaction amplifying revenue numbers and growth.

Save Time and Effort

Seamlessly connect business-critical applications and save huge amount of time and effort by automating business processes

Boost Productivity

Eliminate the need for manual data entry, resulting reduced risk of errors, increased productivity, quality and a happier workforce

Maximize Growth

Streamlined business processes lets you focus on what matters the most: increasing customer satisfaction, revenue, growth!

What our customers say...

Without APPSeCONNECT, I don't think we could have grown our website to where it is now. In terms of what is out there in the market, it is the cheapest option that would deliver a reliable service.

Erika Weilmayer
Prana Biovegan

The product is easy to work with. Through out the process, APPSeCONNECT was very accommodating of our specific requests.

Victoria Schweistein
Lumondi Inc

Integration Case Studies

Nine Line Apparel

Nine Line Apparel has optimized and improved their overall business processes including efficient order fulfillment and higher customer satisfaction levels.
